Skills

Technologies & Languages

- ASP.Net, Dotnet Core
- TypeScript
- JavaScript/ES6
- ExpressJS
- Nestjs
- PostgreSQL
- WordPress
- Unity
- WordPress
- MongoDB
- SQL Server
- Git
- NodeJS
- C#

Methodologies & Concepts

- Agile Scrum Development
- Security and data protection
- Clean architecture

Hard Skills

- Debugging
- Testing
- Command Line
- Cross-Browser Development

Soft Skills

- Strong Leadership Skills
- Excellent Communication
- Problem-Solving
- Critical Thinking

Professional Summary

A results-driven and proactive Software Developer with a proven track record in leading diverse teams and delivering high-quality solutions using React, NodeJS, ASP.NET, C#, and a Clean Backend architecture. Years of experience in creating intuitive user interfaces, leveraging modern technologies to develop scalable applications and streamline workflows. Passionate about innovation, team collaboration, and consistently exceeding project goals.

Work Experience

Hagull 2023 – 2025
FullStack DEVELOPER (NYSC)

- Contributed to transitioning the backend codebase from Express.js to NestJS, enhancing modularity and scalability.
- Designed and implemented APIs for user authentication and login, ensuring robust security measures.
- Managed and queried databases using PostgreSQL for efficient data storage and retrieval.
- Participated in code reviews to maintain high-quality standards and best practices.
- Engaged in continuous learning to stay updated with emerging backend technologies.
- Collaborated with team members using Git, pushing code to repositories, forking others' contributions, and merging changes effectively.

Institute of Genomics and Global Health (IGH) 2025
VR developer

- Designed and developed VR educational applications using Unity 6 and Oculus Quest 3, enabling interactive exploration of DNA, RNA, proteins, and virus structures (e.g., HIV, SARS-CoV-2).
- Taught and mentored students on how to use VR for molecular biology by integrating interactive tools, teleportation, and molecular visualization in custom-built virtual scenes.
- Led the development of the official Hackathon website, enabling registration, team selection, and project tracking across biology, C#/Unity, and 3D design participants.
- Integrated XR Grab Interactables, image labels, molecule selection dropdowns, and teleport anchors for seamless user interaction within VR environments.
- Documented and reported weekly IT/VR department meetings, tracking task progress and providing clear summaries to leadership.
- Built a functional virtual laboratory scene, complete with interactive elements and voiceover/audio instructions to simulate real-world learning environments.
- Learned and applied C# programming to write custom scripts for user interaction animations, and game-like experiences within the VR application.

SterlingPRO Business Applications 2025
Software Developer

- Upgrade of legacy ASP.Net MVC applications to .Net 8 using clean architecture

- Developed and provided maintenance for .NET Application, using ASP.NET MVC, jQuery, HTML, and CSS.
- Provided timely and efficient technical support within the organization, resolving hardware and software issues.
- Conducted comprehensive UI design reviews resulting in user-centric, accessible projects, reflected in improved Customer Effort Scores and high Customer Satisfaction rates.

Education

B.S.C, HUMAN PHYSIOLOGY

Ambrose Alli University, EKPOMA 2023

National Examinations Council (NECO)
Senior School Certificate 2017

Marigold College oworoshoki, Lagos

Training || Certification

- Microsoft: C#, Unity Learn, VR Development
- Accenture: Digital Skills: User Experience
- Udemy: Complete Web Development
- Udemy: Complete React Developer
- Udemy: Complete **Node.js, Express, MongoDB & More: The Complete Bootcamp**
